Research Interests

I have extensive experience in Computer Vision, Machine Learning and Deep Learning research. I am currently leading the Neural Network hardware accelerator software team at Samsung. I am actively working on algorithms that accelerate and compress Neural Networks. During my PhD thesis, I dealt with video understanding, texture/structure partition, texture compression, synthesis and video compression. I have also worked on problems related to video segmentation, scene flow and texture segmentation. I have been exposed through research or courses to Machine Learning, Video and Image Processing and Convex Optimization.

Education

UCLA	**PhD in Computer Science** (Advisor: Prof. Stefano Soatto)	9/2010 – 9/2015
	Major field: Computer Vision.	
	Minor fields: Artificial Intelligence, Systems and Signals.	
	M.Sc. in Computer Science	9/2010 – 3/2013
	Focus on Computer Vision, Machine Learning and Statistics.	
Stanford University	**M.S. in Electrical Engineering**	9/2008 – 3/2010
	Focus on Computer Vision, Signal and Image Processing.	
	Projects: Image understanding, independent study work with Prof. Fei-Fei Li.	
Imperial College	**MEng. in Electrical and Electronic Engineering with First Class Honors**	9/2004 – 6/2008
	Focus on Digital Signal Processing.	

Employment History

Samsung	**Senior Deep Learning Research Team Lead**	11/2018 – Pres.
	Leading S/W team in deep learning research.	
	Senior Computer Vision Scientist	1/2017 – 11/2018
	Accelerating Neural Networks via algorithmic designs.	
	Main topics of research: Pruning, Quantization, Compression.	
Dolby Laboratories	**Research Engineer, Image Technology**	12/2015 – 1/2017
	Applied Machine Learning techniques in video shot detection to achieve state-of-the-art performance, developed an image QA system to automate the encoding process of video and developed an image denoising algorithm that was incorporated in the encoding process under the Dolby Vision framework.	
	Research Intern	5/2015 – 7/2015
	Designed a video segmentation system that is competitive with state-of-the-art.	
	Research Intern	6/2014 – 9/2014
	Designed a scene flow algorithm that achieves state-of-the-art performance.	
HBO Inc.	**Technical Consultant**	5/2014 – 5/2014
	Technical analysis on topics related to the T.V. show "Silicon Valley".	
Adobe Systems Inc.	**Emerging Graphics Group Intern**	6/2013 – 9/2013
	Designed a new texture segmentation algorithm that achieves comparable results with recent approaches.	
UCLA	**Teaching Assistant** (Introduction to Computer Graphics)	3/2012 – 6/2012
	Graduate Student Researcher (Research in Computer Vision)	9/2010 – 9/2015
Princeton University	**Visiting Student Research Collaborator**	7/2009 – 9/2009
	Worked on quickest detection theory in cognitive radio networks that lead to a journal publication.	
Cyprus National Guard		7/2002 – 8/2004

Awards and Achievements

Reviewer for ICCV 2013, 2017 and CVIU. University fellowship at UCLA for the academic years 2010-11 and 2011-12. Won the Ideas Entrepreneurship Challenge of Imperial College (Winning prize was a £1,000 GBP, submitted a business idea called "LOWN" -Lights On When Needed). Associateship of the City and Guilds of London Institute (ACGI) with First Class Honors. Ranked top 4 out of 150 for overall performance at Imperial College. Commendation by the head of the EE department for ranking within the top 10 students in year 3 and top 12 in year 2.

Skills
Programming: C++, C, Python, Matlab.
Languages: Greek (Native language), English (Fluent), Polish (Advanced).

Patents
G.G., "Lossy Compression of Neural Network Activation Maps", Patent Pending, 2018
G.G., "Lossless Compression of Neural Network Weights", Patent Pending, 2018
G.G., "Lossless Compression of Sparse Activation Maps of Neural Networks", Patent Pending, 2018
G.G., W. Deng, "Accelerating Long Short-Term Memory Networks via Selective Pruning", Patent Pending, 2018
W. Deng, **G.G.**, "Self-Pruning Neural Networks for Weight Parameter Reduction", Patent Pending, 2017
Z. Ji, J.W. Brothers, W. Deng, **G.G.**, "Methods and Algorithms for Reducing Computation for Deep Neural Networks via Pruning", Patent Pending 2017
A. Partin, K. Thurston, **G. G.**, "Color Image Modification with Approximation Function", Patent Pending, 2017
N. Xu, **G.G.**, J. Crenshaw, "Coherent Motion Estimation for Stereoscopic Video", U.S. Provisional Patent Appl. 62/128,399, March 4, 2015.
